(16<sup>th</sup> July, 2016)

## **1<sup>st</sup> Annual Symposium on “Innovations in Drug Delivery and Biomedical Research”**

We are pleased to welcome you to IDBR-2016, an event full of interesting and inspiring presentations from renowned researchers belonging to diverse disciplines working with an emphasis on Drug Delivery and Biomedical Sciences. In this symposium, internationally renowned speakers would share their innovations and success stories with the audience.

IDBR-2016 is a scientific event organized by Institute for Drug Delivery and Biomedical Research (IDBR), Bengaluru, a non-profit research organization founded to foster interdisciplinary and advanced research on innovative drug delivery and novel treatment approaches for chronic disorders. The research areas focused by IDBR have a bench to bedside approach and are intended to improve the quality of life of patients. IDBR is constituted of a team of accomplished scientists with a common goal. IDBR, Bengaluru, has developed as a premier research institute since its inception in 2013, and established collaborations with the Universities and industries all over the world.
